

Thursday, July 17, 2008  
13:00 - 17:00  
T 911

## **SFB-Mini-Workshop on Computational Electromagnetics**

DI Markus Windisch (TU Graz):  
**Interface Conditions for Tearing and Intercon-  
necting problems for non-elliptic operators**

Dr. Dylan Copeland (University of Linz):  
**Domain decomposition solvers for nonlinear mul-  
tiharmonic problems**

DI Clemens Pechstein (University of Linz):  
**A rigorous analysis of a FETI method for high-  
contrast coefficients not resolved by the subdo-  
main partitioning**

Univ.-Prof. Dr. Olaf Steinbach (TU Graz):  
**Boundary Element Methods for Dirichlet Control  
Problems**
