

Examples from the Project Seminar:

1. Electric Force Microscope (SS 2007) (by Stefan Kleiss)

2. Wavemaker (SS 2007) by Clemens Hofreither

3. New project in the project seminar SS 2008:

Simulation and optimization of electrical machines

in air subdomains: $-\Delta A_z = 0$

in ferromagnetic subdomains
 $-\operatorname{div}\left(\frac{1}{\mu_0 \mu_r} \nabla A_z\right) = f$

→ PS starts on Tuesday, March 17, 2008, 13:45-15:15, HS14
